

AMENDMENT(S) TO THE SPECIFICATION

Please replace the paragraph beginning at page 7, line 10, with the following rewritten paragraph:

Fig. 5 shows the protective housing 22 in more detail with reinforcing grooves 29 running radially and with its first and second portions 24 and 25 respectively. Ref. 23' denotes other fastening regions for cooperation with the fastening regions 23 on the protective plate 10 (Fig. [[2]] 3). Between these joining regions 23' there are recesses 28 which, when the protective housing 22 is fitted to a protective plate 10, constitute apertures ~~catering for~~ allowing the outflow of air which has been used for cooling a brake disc during vehicle operation.
